ALTO Aviation launches 2016 Cabin Audio & Entertainment Upgrade Programs specific for the Gulfstream aftermarket aircraft.

Sterling, MA. February 3, 2016.

ALTO Aviation, the premier supplier of custom cabin audio entertainment systems for business aviation, is pleased to announce the launching of the **2016 Gulfstream Cabin Audio & Entertainment Upgrade Programs**, specifically designed to provide the business aviation Gulfstream retrofit / aftermarket aircraft with a fast, easy and cost-efficient way to upgrade their cabin audio system. The result is revolutionary, achieving the most superb cabin audio performance, and ensuring a powerful audiophile listening experience for the VIP and every passenger in the cabin.

The **Gulfstream Digital Audio Upgrade Program** has been specifically designed for G-IV (SN's 1464 or higher), G-V (SN's 635 or higher), G450 (SN's 4002 or higher) and G550 aircraft (SN's 5002 or higher).

The current production aircraft installs ALTO analog amps and non-ALTO speakers. ALTO has a direct fit digital amp and direct fit speakers that allows easy upgrade to a full ALTO system. By implementing a new digital amp with EQ compensation, ALTO can customize the sound system to exactly match the characteristics of the cabin. The digital amp allows to fine tune the system to maximize the system performance. Little to no wiring changes are needed.

The **Gulfstream-Bose® Replacement Upgrade Program** is offered for G-IV (SN's 1209 - 1405) and G-V (SN's 501-603). The Bose systems in these cabins are obsolete and no longer serviceable, but now they can easily be upgraded with a high-performance cabin audio system. ALTO's PSU midrange/high enclosure is 100% compatible with the former Bose® unit allowing no PSU modifications. The Bose® upgrade program require new wiring harnesses to be installed in the aircraft. There are three replacement options.

1. - A complete replacement of the entire system.
2. - MH upgrade only.
3. - Subwoofer upgrade only.

About ALTO Aviation

ALTO Aviation is the premier supplier of high-end cabin audio entertainment systems for business aviation, which are offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude, and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.

If you would like more information or would like to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 978.466.5992 / cscarlata@altoaviation.com.
