ALTO Aviation achieves AS9100C Certification Aerospace Quality Management System Standard.

Sterling, MA. May 4, 2016

ALTO Aviation, the premier supplier of custom cabin audio entertainment systems for business aviation, is pleased to announce the achievement of AS9100 Rev. C Certification, Aerospace Quality Management System Standard for the company's headquarters located in Sterling, MA and for the Engineering, Research & Development facility located in Jupiter, FL.

This certification to the international aerospace quality standard signifies ALTO Aviation ongoing commitment to meeting and exceeding increasingly stringent industry requirements for aerospace related products for both civil and military markets.

ALTO Aviation's Quality System was currently compliant to AS9100 and FAA approved. Adding AS9100 Rev. C certification strengthens ALTO Aviation's competitive position and standardizes quality processes across the company. The AS9100 Rev. C certification, issued by SAE International, is the highest of global standards for quality assurance in the Aircraft, Space & Defense (AS&D) industries and AS9100 Rev. C is the most current standard. The standard provides manufacturing suppliers with a comprehensive quality system for providing safe and reliable products. AS9100 is managed by the International Aerospace Quality Group (IAQG) and based upon ISO 9001:2008 quality management standard.

This certification is the result of a team commitment to compliance led by Rafael Vazquez, ALTO Aviation Quality Manager, who stepped up to the challenge of upgrading the quality management system, resulting in the successful achievement of the AS9100 Rev. C certification.

"ALTO Aviation is extremely proud and very excited in achieving AS9100C certification. We have always been diligent about our quality management system and this certification reflects our continuous efforts to ensure that we will meet or exceed our customer's requirements. It is a testament of our commitment to Quality". Rafael Vazquez, ALTO Aviation Quality Manager said.

About ALTO Aviation

ALTO Aviation is the premier supplier of high-end cabin audio and entertainment systems for business aviation, which are offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude, and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.
