## ALTO Aviation introduces innovative Cabin Public Address (PA) and Audio Entertainment Solution for Embraer Phenom 100 and 300 Aircraft.

Sterling, MA. October 12, 2015.

ALTO Aviation is pleased to announce the launching of a new Cabin Public Address (PA) and Audio Entertainment Solution specifically engineered for Embraer Phenom 100 and 300 Aircraft.

ALTO Aviation acoustic engineers have developed a PA system employing 100% fit compatible speakers and a digital amplifier for factory provisioned speaker locations on all Phenom 100 and 300 aircraft. This innovative solution allows the pilot to communicate safety and make personal announcements to the passengers in the cabin, who are not wearing intercom headsets.

The flight crew will be able to make PA announcements from the cockpit by selecting the PA key on the audio panel. When PA is selected from the cockpit a PA chime will activate and the crew will be able to make clear announcements to passengers without requiring them to wear headsets.

This versatile solution also allows adding excellent entertainment audio to the system, providing all the cabin passengers in the cabin with an outstanding listening experience, allowing them to plug in their personal media device and listen to their favorite music through an ALTO Aviation premium digital sound system. Volume settings and music selection will be controlled through the passenger's personal device. When a PA event occurs the PA event will override any entertainment audio playing.

A second option includes four (4) source inputs. Source inputs typically include XM radio, CD/DVD, Aux input and PA. Source selection and volume control will take place from an ALTO ACAPELLA™ VIP keypad. A secondary aux input is also available at the keypad. The PA chime

and PA override feature are also included. The PA system and both entertainment audio options outlined above can be fully integrated with existing Phenom 100 IFE package and basic and premium IFE packages in the Phenom 300.

'This solution provides operators with a basic PA system not offered in new Phenom Aircraft, which offers an option for a premium audio entertainment system that ALTO Aviation is recognized for in the Business Aviation industry' Steve Lord, ALTO Aviation Senior Technical Sales Manager, said.

### **About ALTO Aviation**

ALTO Aviation is the premier supplier of high-end cabin entertainment systems for business aviation, which are offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude, and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR and Manchester, NH, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.

If you would like more information or would like to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 978.466.5992 / [cscarlata@altoaviation.com](mailto:cscarlata@altoaviation.com).
