ALTO Aviation has introduced their New Cabin Management System at NBAA-BACE 2018.

Orlando, FL. October 16, 2018.

ALTO Aviation, a premier supplier of high-end custom cabin audio & entertainment systems for business aviation, has introduced their new Cabin Management System designed in-house by ALTO engineers, bringing to the retrofit aircraft market a budget friendly solution in Cabin Management. ALTO Aviation's new Cabin Management System is based on simplicity without compromising excellence in performance or features.

This fit compatible solution preserves furnishing and veneers by directly replacing old, broken or non-serviceable switches with the new ALTO Cadence Switch System (CSS), consisting of modular switch panels, and using discrete logic and basic software.

"One of the key features of this Cabin Management System is modularity. This approach allows us the ability to phase the upgrades based on scope and budget" says Kevin Hayes, V.P. of Sales and Marketing at ALTO Aviation.

The switch panels can also be upgraded to include USB charging and HDMI input. ALTO's Cadence Switch System controls every aspect of the cabin systems including audio, HD video, temperature, lighting, window shades, attendant call, galley and lavatory functions, and many more.

A smartphone/PED app is being developed in-house and will be available in 2019. This app will provide the end user with an elegant, full featured graphic interface to all components.

ALTO Aviation designs and manufactures all the passenger controls, relay & climate controllers, premium audio systems, interface electronics, and accessories. Through solid partnerships, ALTO provides integration with third party premium HD monitors, audio/video distribution, and A/V source equipment resulting in a complete customizable, fit compatible, high performing, and budget friendly Cabin Management System.

ALTO Aviation is located at booth # 1081 at NBAA-BACE 2018. The ALTO team is displaying a full demonstration of the new Cabin Management System along with their premium cabin audio & entertainment systems, and passenger controls.

About ALTO Aviation

ALTO Aviation is the premier supplier of high-end cabin audio & entertainment systems for business aviation, offered as standard equipment on Gulfstream G650/650ER, G500/600, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, and Latitude. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.

If you would like more information or would like to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 561.283.9725 / cscarlata@altoaviation.com
