PRESS RELEASE

April 27, 2016

For immediate release

ALTO Aviation unveils at AEA their new Cabin Audio Amplifier ALTO Acapella™ DZ-290

Orlando, FL. April 27, 2016.

ALTO Aviation has introduced at AEA Orlando 2016 New Product Introductions Session their new Cabin Audio Amplifier ALTO Acapella™ DZ-290, ALTO Aviation's new qualified and FAA approved solution specifically engineered as a solution for cabin audio upgrade, to update new or legacy systems with outstanding sound.

The integration of the DZ-290 amplifier into your system is easy and control for the new DZ-290 audio system can be through an ALTO keypad, an existing legacy switch panel or optional software. It also features chimes control for NS and FSB ordinance connections. It supports minimal disruption to the existing wiring.

The unique feature of the DZ-290 is its ability to interface directly with speaker level outputs from a PA-AV Unit. It allows the audio to be passed directly onto ALTO speakers. This revolutionary amplifier features an integrated 4 channel amplifier with over 160 W of power to bypass the existing PA/IFE amp. It features internal 4 source selection, volume and mute control. Selection may be through ground logic or by optional software. PA override, chime inputs and default to PA make it well suited to override existing PA-AV controllers.

The DZ-290 amplifier interfaces directly to the Audio International RS-485 databus for control of the ALTO amp. This interface allows former Audio International equipment to remain in the aircraft and may provide obsolescence support for legacy Audio International and Baker systems alike.

About ALTO Aviation

ALTO Aviation is the premier supplier of high-end audio & entertainment systems for business aviation, which are offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude, and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO is based in Sterling, MA. and Jupiter, FL. All of our systems are proudly designed, engineered, and manufactured in the US.

If you would like more information or would like to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 978-466-5992 / cscarlata@altoaviation.com.

Audio designed with your *aircraft* in mind™
