PRESS RELEASE

December 1, 2014

## **ALTO AVIATION expands Florida R&D Facility.**

**LEOMINSTER, MA. DECEMBER 1, 2014.**

ALTO Aviation is pleased to announce the expansion of their Florida R+D facility by increasing its space by 50%. The new space has been added to support the ongoing and planned growth of ALTO's research and new product development departments. The expanded facility now houses an improved testing lab further supporting in-house DO-160 testing and TSO certification testing. An aircraft cabin mockup is in place for use in advanced acoustic research. The facility will also house an electrical RF screen room to be used for EMC evaluation and certification testing on new product designs.

As part of the planned growth in the area of research and advanced technologies, ALTO has appointed their V.P. of Engineering, Steve Scarlata as V.P. of Research and Development. Scarlata will continue overseeing all of the companies engineering as well as the research and new product development for the company.

"I am thrilled at ALTO's commitment toward expanding our high-end cabin audio offering by continued investment in research and new product development. It is exciting to be managing our growing research division and I look forward to my role in bringing new technologies to market." Scarlata explained.

## About ALTO Aviation

ALTO Aviation is the premier supplier of high-end audio entertainment systems for business aviation, offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft small to large. All our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound and our company is fully committed to providing each client with outstanding customer service and 24/7 support. Based in Leominster, MA. and Jupiter, FL., all our systems are proudly designed, engineered and manufactured in the US.

If you'd like more information or to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 978-466-5992 / [cscarlata@altoaviation.com](mailto:cscarlata@altoaviation.com).

Audio designed with your *aircraft* in mind™
