

Aircraft Page/Chime Loudspeaker 2.5" (57mm)

P-12

The P-12 is a small, high output loudspeaker for cockpit or cabin communication systems. Smooth frequency response eliminates the need for frequency equalization for superior intelligibility with voice paging.

FEATURES

- Weighs <6.9 ounces
- Only 1.41" deep
- Integrated cable harness
- Small package allows for easy installation
- Smooth frequency response
- Superior intelligibility

SPECIFICATIONS

- | | | |
|----------------------|--|---------------------|
| • Product Code | 106130-0004 (4 ohm) | 106130-0008 (8 ohm) |
| • Frequency Response | 150Hz - 20KHz | |
| • Impedance | 4 or 8 ohm nominal | |
| • Max. Power Rating | 25 Watt RMS | |
| • Sensitivity | 87 dB SPL @ 1W/1m | |
| • Storage Temp | -40 to +80 C | |
| • Operating Temp | -20 to +60 C | |
| • Dimensions | 2.76"W X 2.76"H X 1.41"D
70.1mm W X 70.1mm H X 35.8mm D | |
| • Mating Connector | 2 pin Amp Universal MATE-N-LOCK on pigtail harness | |
| • Weight | <6.9 oz (<195g) | |
