ALTO Aviation introduces new ALTO M1285R chime/tone warning amplifier with 12 tones.

Sterling, MA. July 5, 2016.

ALTO Aviation, the premier supplier of high-end cabin audio & entertainment systems for business aviation, is pleased to announce the availability of their new chime/tone warning amplifier, ALTO M1285R.

The ALTO M1285R is a direct fit, pin compatible chime amplifier replacement for aircraft cockpit or passenger address tone generation designed by ALTO Aviation engineers to provide with a replacement for the now obsolete Baker M1285 chime/tone warning system with identical main connector and pinout and identical mounting footprint as the original Baker M1285.

The unit has 12 available tones, which can be triggered by high or low opto-isolated discrete logic inputs. The amplifier has an audio power amplifier output supporting loudspeaker loads down to 4 ohms and up to 30 watts. The amplifier has two line outputs capable of providing 40mW into 600 ohm.

The unit is fully configurable via a custom software interface for easily adjustable custom tone and volume settings.

The ALTO M1285R unit is certified to TSO-C-139a. The software is certified to DO-178B Level D. It carries a five (5) year guarantee and is available for all aircraft platforms.

About ALTO Aviation

ALTO Aviation is the premier supplier of high-end cabin audio & entertainment systems for business aviation, which are offered as standard equipment on Gulfstream G650/650ER, G500/600, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, and Latitude. ALTO is the preferred choice for after-market and retrofit installations for all business aircraft, small to large. All of our systems hold TSO certification.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.

If you would like more information or would like to schedule an interview with one of our ALTO Aviation representatives, please contact Cristina Scarlata at 978.466.5992 / cscarlata@altoaviation.com.
