### ASP-437 Aircraft Cabin Loudspeaker

The ASP-436 is a loudspeaker module with two high excursion drivers that are precisely matched resulting in high output. It weighs less than 13 oz. The motor structure of the drivers is designed to have low magnetic leakage compared to conventional designs. The orientation of the two drivers provides for a wide sound dispersion characteristic reducing localization and an improvement in the acoustic balance in the aircraft cabin. The small dimensions of the unit simplify installation in the overhead panels, requiring less width and depth behind the panel, and a smaller grill opening into the cabin.

## FEATURES

- Weighs < 14.6 oz
- 1.56" deep
- Small package allows for easy installation
- Wide dispersion pattern to reduce near-speaker localization while providing even sound throughout the cabin
- TSO-C139a
- Integrated grills protect speakers during installation
- Aluminum enclosure with welded seams
- Integral part of the ALTO Aviation Entertainment System (AES)

## SPECIFICATIONS

Product Code	106508-437-4A0001 (4 Ohm) (Standard connector type A)
	106508-437-8A0001 (8 Ohm) (Standard connector type A)
Frequency Response	150Hz - 20KHz
Impedance	8 Ohm nominal
Drivers	2" high excursion, low magnetic leakage 2 per enclosure
Enclosure	Aluminum with welded seams, Integral grill for driver protection during installation
Continuous Power Rating	20 Watt RMS
Max. Power Rating	40 Watt RMS
Sensitivity	90 dB SPL @ 1W/1m @ 1kHz
DO-160F Env. Cat	[A2X]CAB[(SC)(HR)]XXXXXXBXXXXXX[XXXXX]XXXX
Mating Connector	See Connector Pinouts
Weight	<14.6 oz (413 g)
Dimensions	6.78"W X 4.78"H X 1.56"D 172.1mm W X 121.4mm H X 39.7mm D

## ASP-437 Aircraft Cabin Loudspeaker

Connector for p/n's 106508-437-XAXXXX, where "A" designates specific connector.  
Please contact ALTO for additional connector options.
