ALTO Aviation milestone: 20 years of premium cabin audio & entertainment systems for Business Aviation.

Sterling, MA. January 30, 2017.

2017 marks the 20th anniversary for ALTO Aviation as suppliers of high-end custom cabin audio & entertainment systems for all aircraft platforms in Business Aviation.

In 1997, ALTO Aviation started in Massachusetts as the dream of founders Don Hamilton and Steve Scarlata to wow each customer by providing with the most powerful listening experience available at 40,000 ft.

During the past 20 years, ALTO's acoustical engineering team has pioneered several new audio systems scalable to all aircraft sizes and helicopters, including the company's signature ALTO nVELOP™ Digital Surround Sound System, an innovative audio system able to mitigate the harsh environment of the cabin while providing crystal-clear audiophile surround sound to every seat the cabin.

Today, ALTO Aviation is recognized in the OEM and retrofit industry as an established supplier of high-end cabin audio & entertainment systems, offering a full line of loudspeakers, amplifiers, subwoofers, passenger controls and page/chime systems with a focus on easy, retrofit-friendly installations. ALTO Aviation has achieved reputation for designing the smallest, lightest and most powerful audio components in Business Aviation. All ALTO Aviation systems are designed, engineered and manufactured in the US and distributed worldwide.

Don Hamilton, President of ALTO Aviation, remarked: "We celebrate 20 years in 2017 with deep gratitude to all our customers, partners, and every member of the ALTO Aviation team. We have dedicated ourselves to listening to our customers and creating innovative products that exceed their expectations and add value to the services they provide. The ALTO Aviation team looks forward to the next 20 years of innovation and the continued opportunity to support all our customers in Business Aviation."

"It's a great pleasure and honor to be part of the Business Aviation community. As we enter our 20th year of operation, we feel that we have become part of a close family of customers, partners, and colleagues in the aviation industry. I am very proud of the ALTO team and look forward to many more years of service and innovation." Steve Scarlata, VP of Engineering / R&D, added.

About ALTO Aviation

All ALTO cabin audio & entertainment systems are TSO Certified and are offered as standard equipment on Gulfstream G650, G450/550 Elite Series, G280, Falcon F7X, F900, F2000, Embraer Lineage, Legacy 650, 600, 500, 450, Cessna Citation X, Sovereign, Latitude, and Sikorsky S-92, and S-70. ALTO is the preferred choice for after-market and retrofit installations for all aircraft platforms.

Every ALTO audio system is custom designed and acoustically contoured specifically for each cabin installation. ALTO amplifiers and loudspeakers are expertly engineered to provide the highest level of sound performance at 40,000 feet, using the latest in digital technology. As a result, every passenger in the cabin gets transported into a powerful audio experience that rivals the best home and theater systems.

Everyone at ALTO is passionate about state-of-the-art sound, and our company is fully committed to providing each client with outstanding customer service and 24/7 support. ALTO Aviation corporate headquarters are located in Sterling, MA. The Engineering and R&D offices are located in Jupiter, FL. ALTO has Sales representation in Little Rock, AR and Manchester, NH, and Engineering Support for Europe in Stuttgart, Germany. All of our systems are proudly designed, engineered, and manufactured in the US and distributed worldwide.
