PRESS RELEASE

June 27, 2023

**ALTO Aviation announces 2023 Mid-Year Event
featuring Cadence™ Cabin Control Upgrade Programs
for retrofit Hawker 800 and 800 XP aircraft.**

ALTO Aviation, an aerospace leader in premium cabin audio systems and Cabin Management System for Business Aviation, has announced its 2023 Mid-Year Cabin Management Upgrade Solutions specifically designed to upgrade Hawker 800 and 800 XP aircraft.

The Cadence™ Cabin Management 2023 Mid-Year Upgrade programs offer an extensive portfolio of direct replacement passenger controls and customized bezels that replace and upgrade obsolete, broken and non-serviceable Audio International switch panels on the Hawker 800/800XP aircraft.

Cadence modular approach is designed to easily upgrade controls seamlessly blending with the Hawker 800 and 800 XP interior design concepts, preserving the wood and furnishing and serving all styles switches.

All ALTO upgrade programs are scalable. The new ALTO units are fit-compatible and include Read/Table and USB charging, also enabling easy removal of headphone functionality, and allowing repurposing the panels with USB and Bluetooth audio.

The upgrades offer easy integration or complete replacement of the existing Cabin Management System in the aircraft with ALTO's new System Master Controller SM-1070. This intuitive controller links Cabin Management System components with various communication protocols. ALTO cabin control app allows passengers intuitive cabin control from their personal devices.

"The ALTO Team is very excited launching the 2023 Mid-Year Event featuring upgrades specifically designed to address passenger controls' obsolescence on Hawker 800 and 800XP aircraft. We are ready to serve regardless the scope of the project. From replacing one single switch to a full Cadence Cabin Management System, we love partnering with our authorized installers to deliver seamless installations and unrivaled performance, aimed always to wow each one of our valuable customers." – Kevin Hayes, V.P of Sales & Marketing at ALTO Aviation, said.

About ALTO Aviation

ALTO Aviation is an aerospace industry leader in premium cabin sound. Our in-house team designs, manufacture, and distributes premium certified Cabin Audio Systems and Cabin Management for all aircraft types in Business Aviation.

Our solutions include Digital Surround Sound, Immersive 3D audio, ALTO MySound™ VIP seat optimization, award-winner ALTO Soundstage™ home theater experience, PA/Chime Systems, Bluetooth® audio, Cadence™ Cabin Management System, direct replacement Passenger Controls, and ALTO cabin control app. All our products are FAA TSO-C139 approved and are sold to most major OEMs and successfully installed by leading MRO companies worldwide.

ALTO cabin systems engineers tune each cabin onsite for maximum optimization of each installation. Over 5,000 business jets fly with ALTO Aviation components. ALTO also manufactures precision sheet metal and machined parts for aerospace and multiple high-standard industries.
