Cadence™ Cabin Management System
Fit-Compatible Switch Panels

Premium Cabin Audio Systems

Since 1997, **ALTO Aviation** has been the reference as leading suppliers of **Cabin Audio Systems** exclusively engineered and manufactured for aircraft. ALTO is known as **The Sound of Business Aviation**.

We have excellent long-term partnerships with the top major OEMs as line-fit audio equipment providers, also serving all aftermarket aircraft with audio and cabin control upgrades installed by our extensive network of MRO authorized dealers.

Over 7,000 jets fly worldwide with ALTO Sound.

All our Cabin Audio Systems are **tuned onsite** to immerse each seat of the cabin in the most powerful, realistic, and crystal-clear sound quality.

We are specialized in offering unique entertainment, work environment, and relaxation listening experiences, unrivaled in Aviation.

Bluetooth Audio Receivers & Transmitters

Public Address & Chime Systems

ALTO Cabin Control App

ALTO MySound™ Seat-Centric Audio

Exclusive Onsite Tuning of all ALTO Systems

ALTO Cabin Audio Systems are the selected audio by our **top CMS industry partners** Collins Venue™, Thales, Honeywell Ovation™, and Astronics CCC.

ALTO offers the **lightest and smallest audio components** in the industry, seamlessly blending with every interior design concept.

The **ALTO Cabin Control App** controls every functionality in the cabin, also providing customized listening experiences, from full Cabin Stereo, to VIP Seat Focus™ Surround, and Seat Row Surround.

Cadence™ Cabin Management System

ALTO Cadence™ Cabin Management System provides your passengers with reliable and complete cabin control. Designed with **simplicity, flexibility, and unrivaled performance** in mind, Cadence™ easily solves CMS obsolescence. It's the ideal solution for privately-owned aircraft, as well as for Head-of-State, Special Mission, and fleet operators.

ALTO upgrades enhance every aircraft's value bringing new life to jets to get them ready for Pre-Purchase Inspection. Our **modular, fit-compatible approach** to switch panels minimize or eliminate woodwork, considerably reducing costs and downtime. All our solutions are scalable with customizable bezels that seamlessly integrate all entertainment and connectivity equipment.

ALTO's extensive portfolio of **TSO-Certified components** serve all scopes of upgrade projects, from replacing one single switch to retrofitting with reliable and complete Cabin Management System. The ALTO Cabin Control App allows intuitive and user-friendly control from PEDs.

ALTO Cadence™ Galley 10.1" Touch Screen Panel

Intuitive, Crew-Friendly Cabin Control provides full control of all cabin functionality.

As part of ALTO's Cadence™ Cabin Management System portfolio, we offer a **10.1 inch galley touch screen panel** that controls all cabin functionality: lighting, IFE, power, galley appliances, attendant call, shades, climate, flight information, and system settings.

The ALTO app **can be duplicated** and run on one or more devices such as an iPad, Android tablet, or any MS Windows device; this allows the flight crew to access Cadence™ galley touch panel functions from anywhere in the aircraft, providing redundancy.

This is an excellent and simple option for an **easy and fast replacement of obsolete legacy galley switch panels** that adds numerous valuable features to any cabin upgrade.
